

Smart Suede

Smart Suede is a recycled suede material with approximately 60% leather content, developed for more efficient use in production. It combines a natural look with a soft touch and consistent performance. Supplied in square sheets, it enables optimised cutting and reduces material waste. A practical solution, balancing aesthetics and functionality.

Test	Standard	Measurement unit	Result
Tear strength	UNI EN ISO 3377-2	N	≥ 60
Tensile strength	UNI EN ISO 3376	N/mm²	≥ 17
Water vapour permeability	DIN 53333	mg/cm²h	≥ 4
Colour fastness to rubbing (dry, 50 cycles)	ISO 11640	Grey scale	≥ 3
Colour fastness to rubbing (wet, 20 cycles)	ISO 11640	Grey scale	2,5 - 3

(*This specification is not guaranteed on dark colours.

REACH compliant

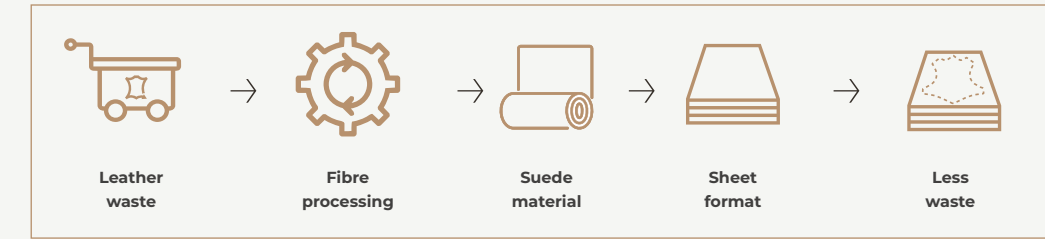

(*Avoid exposure to direct heat sources
Avoid direct sunlight for prolonged periods

A smarter suede lifecycle

Extending the lifecycle of leather — instead of starting over.

Designed for a wide range of applications, Smart Suede is suitable for use across various industries, including fashion, accessories, footwear, and interior design. The material provides both creative freedom and reliability for aesthetic as well as functional uses.

Our Express service ensures fast, reliable delivery — so you can bring your ideas to life without delay.
